*"You Can't change anything standing apart,
from the outside.
Looking down, taking the overview,
you can see the pattern.
What's wrong, what's missing.
You yearn to fix it.
But you can't patch it.
You have to be inside it, wearing it.
You have to be part of the wearing."*

Ursula K. Le Guin

Dibi nasce oltre trent'anni fa, creata dai fratelli Bizzotto, maestri nelle creazioni di gioielli in oro e in argento. La loro aspirazione è sempre stata quella di realizzare monili che trasmettessero l'eleganza ed il gusto del design italiano, coniugando l'arte della tradizione artigiana con la più alta innovazione tecnologica. Dibi ha da sempre avuto come obiettivo quello di comunicare emozioni e stati d'animo positivi attraverso l'oro e l'argento, esaltandone l'eleganza e la raffinatezza, trasferendo cultura, piacere del bello, gioia di vivere, di sedurre e di sognare.

Dibi was founded more than 30 years ago by the Bizzotto brothers, leaders in the creation of gold and silver jewels. They have always been inspired by the idea to create jewelry able to communicate elegance and the taste of the Italian design, which are the result of a symbiosis between the goldsmith's tradition and the highest technological innovation. Since the beginning Dibi aimed at arising emotions and positive moods through gold and silver enhancing at the same time their elegance and refinement, introducing a new form of cultural experience, inspiring beauty and joy of life, awakening the desire to enchant and evoke dreams.

WITHIN THE MATERIAL OF THE SENSES LIES TESSUTO.

Just like the very structure of the Whole, akin to the movements of the cosmos, there is nothing random about “Tessuto”. It’s a revolution, and like any other movement – be it physical or human – there are reasons, laws, purposes behind it. It’s a revelation, and all the more deserving of admiration because, like any other extraordinary change, there’s an intuition behind it.

A timeless concept of jewellery is emerging, brought to life through the eyes, indeed more so through touch, through contact with the skin. A pleasantly mystifying surprise that stimulates the senses, engendering sensations of wellbeing and harmony, time and again.
